Professional Environmental Compliance Solutions

for Your Facilities Across the Kingdom of Saudi Arabia

# About Us

**Almazin** Specialized for Environmental Studies and Consultations is an accredited consulting office providing environmental compliance services to governmental and private sector facilities in the Kingdom of Saudi Arabia

We have practical experience in issuing and managing environmental permits, preparing environmental studies and plans, and organizing the regulatory status of facilities in accordance with the requirements of the National Center for Environmental Compliance (NCEC) ensuring stable, lawful, and safe business activity.

**We serve a wide range of sectors, including:** Industrial facilities, hospitals and healthcare centers, tourism resorts, industrial workshops, warehouses, scrap yards and dismantling activities, fuel stations, quarries and crushers, and industrial sites

## Our Mission

To provide professional environmental services that help facilities comply with environmental regulations, reduce regulatory risks and achieve environmental sustainability with high efficiency

## Our Vision

To be the first choice for facilities in the fields of environmental studies consulting, and environmental compliance, by delivering reliable accurate, and regulation-compliant solutions within the Kingdom
